1 Health and Safety Policy Statement

At JCM Power, we are committed to remove or reduce the risks to the Health and Safety (H&S) of all workers, contractors and Project Affected People (PAP's) in the countries where we operate. We will achieve this commitment through the following objectives:

- Compliance with all relevant national and international environmental and social legislation as well as align with international best practice, including the IFC Performance Standards, the UN Guiding Principles on Business and Human Rights, ILO Core Labor Standards and ILO Basic Terms and Conditions of Employment, and contributing to the United Nations Sustainable Development Goals (SDG's);
- Develop and implement a H&S system which will include (but not be limited to) the following elements:
 - Policies, plans, procedures and processes;
 - Training and induction program;
 - Monitoring;
 - Reporting; and
 - Continual Improvement.
- Develop a strong H&S culture in JCM leadership to encourage the necessary behaviors and awareness to enable employees, contractors and PAPs and local communities to report any potential risks and incidents, and stop work if there is any concern.
- Strive to continually to improve H&S performance through the recording and analysis of H&S events;
- Adopt a “you see it you own it” approach to H&S within the organization;
- Conduct necessary training of JCM employees in order to increase understanding and awareness of health and safety within the organization; and
- Prepare for potential emergency situations.

2 Communication

The H&S Policy will be communicated to all employees, partners and stakeholders through the following mechanisms:

- Providing policy training to new hires;
- Electronic distribution of the policy to employees, investors and stakeholders;
- Providing public access to the policy on the JCM website; and
- By physical means to important stakeholders (that do not have access to internet).

3 Continual Improvement

The H&S Policy will be reviewed on an annual basis to assess its relevance and coverage of H&S issues and, if necessary, updated.

4 Responsibility and Accountability

Until an H&S Director has been appointed, it will be the responsibility of the Chief Risk Officer (CRO) to implement this H&S Policy, monitor compliance, and take suitable corrective action when there is non-compliance. The CRO will also be responsible for the review and revision of the policy on an annual basis. Once appointed, the H&S Director will assume these responsibilities and the H&S Policy will be updated and re issued.

The Chief Executive Officer (CEO) of JCM Power will have ultimate accountability for JCM's compliance with the policy and will ensure that JCM Executive Management provide the necessary resources required to effectively implement the H&S Policy.

Approved by the board of directors as of November 12, 2018.
